■ Communication

## Profile Summary

Web Developer with hands-on experience in designing and developing **responsive, role-based web applications** using **HTML, CSS, Bootstrap, JavaScript, PHP** and **MySQL**. Developed a complete web-based system as a final year project, focusing on secure authentication, dashboards, and real-world workflows. Comfortable with frontend-backend integration, database management, and collaborative development environments.

## Education

### BS Computer Science

Sep 2021 - Dec 2025

University of Poonch, Rawalakot

- Studied core computer science subjects with a focus on **web-based application development**.
- Completed multiple academic projects involving frontend, backend, and database integration.

## Projects

### Dairévo - Dairy Farm Management System:

Web Application Developer | Final Year Project (2025)

- Developed a **role-based web application** with secure authentication and dashboards.
- Implemented core modules including **breeding, milking, and stock management**.
- Built **responsive user interfaces** using HTML, CSS and Bootstrap.
- Developed backend functionality using **PHP** with **MySQL database integration**.
- Used **Git** for version control and iterative development.

### Selected Academic Projects

- Built responsive frontend layouts using **HTML, CSS, and Bootstrap**.
- Developed basic **PHP-MySQL applications** with CRUD functionality.
- Implemented form validation and database connectivity in semester projects.

## Courses

### Front-End Development (HTML, CSS, Bootstrap, JavaScript)

Dec 2024

- Built structured and semantic web pages using **HTML5**.
- Designed responsive layouts using **CSS and Bootstrap grid system**.
- Implemented basic interactivity and DOM manipulation using **JavaScript**.
- Completed **mini projects and practice-based tasks** to strengthen frontend development concepts.
